VILLAGE RESORTS

- 1 - Timeless, authentic charm
- 2 - A relaxed way of life to enjoy with the family
- 3 - The mountain holiday of the future (genuine summer-winter dual season)
- 4 - A safe haven family asset

Every year, people's thirst for wide open spaces boosts the summer season in the mountains. It's an enthusiasm that mirrors the appeal of "a place in the country" to city dwellers.

VILLAGE RESORTS AND "VILLAGE-FEEL" RESORTS ARE ON THE RISE!

Buyers and holidaymakers are increasingly attracted to year-round resorts like Notre-Dame de Bellecombe. An escape from city life in a chalet-style residence, whose traditional, wood and stone architecture offers a total change of atmosphere, surrounded by vast tracts of unspoilt nature. This is what lies behind the increasing popularity of year-round mountain holidays – starting with summer – and why they are driving growth in the tourism sector both now and for the future.

FEELINGS FIRST

The old 'property-investment' model in tourist apartment complexes is finished! Emotion plays a major role when people buy properties in our apartment complexes. Wishing to stay in control of exactly when they occupy the property, homeowners, influenced by the new Airbnb trend, are attracted by the opportunity of renting out their apartments for several weeks a year to pay for the running and upkeep costs. In this way, owners can ensure their mountain home is financially viable, while avoiding all the management hassle associated with the 'old model'.

A SAFE HAVEN ASSET IN ALL SENSES OF THE TERM

The impact of economic uncertainties (COVID-19, international economic tensions, etc.) makes stock market prices highly volatile. Compared with yo-yo markets, high-end real estate is clearly a safer bet. It's a safe haven family asset in all senses of the term, when you think how people living in the Paris area fled to the country when lockdowns were announced. Spending time getting back to nature with the family in the mountains is a top priority for our fellow citizens.

PACE IS A LUXURY

Our mountain properties have moved beyond the outmoded space-saving model of the past, adopting a new model in which spacious rooms create the feel of a real home. At Terrésens, we meet our clients' expectations by aiming to find the perfect balance between price, comfort and space, especially in the living areas. The decorative focus is on providing fully-equipped American kitchens opening onto living areas that act as the heart of family life. Terrésens, therefore, aims to keep the living area above 25 sq. m. in all apartments that have two or more bedrooms.

NO NEED TO PERCH AT 2000 METRES ABOVE SEA LEVEL!

A real grassroots shift is taking place amongst new buyers, who are no longer focussing their investment solely on winter occupancy with high-altitude skiing. Increasingly keen for their purchase to provide gains in both their finances and their personal pleasure, they are opting for village resorts with year-round appeal in attractive surroundings. Connected to large skiable areas, these village resorts offer both the joys of skiing and those of summer walks in the mountains, village strolls, and visits to café terraces and boutiques. These pleasures are often unavailable in the summer, if you stay perched 2000 metres above sea level, surrounded by bare rocks!

MOUNTAIN BIKES ON THE SLOPES – IT'S ELECTRIFYING!

Terrésens residences are increasingly in demand during the summer – a sign that mountain holidays are no longer just about skiing. Holidays on a crowded beach are beginning to lose their appeal. Riding their electric mountain bike, and pulling a trailer along behind them, people would much rather have a picnic with the family at the top of an Alpine pass, go for a swim in the lake, enjoy a spot of rafting or canyoning, or try some of the other activities available at very affordable prices in the summer. To satisfy their thirst for the great outdoors and for spending quality time with the family, many people are now saying they are thinking of buying a holiday home in the mountains.

VILLAGE RESORTS: Double the season – double the value!

- 1 - Pure air all year round
- 2 - Plenty of activities for everyone
- 3 - Peace & quiet to relax
- 4 - Perfect spot to spend quality time with the family!

LOWER PRICES IN SUMMER

The price of accommodation is lower during the summer season, and this is attracting more and more visitors. There has been a real boom in mountain holidays these last few summers.

PLEASANT TEMPERATURES

For sun-lovers, mountains are where they can get some of the best sunshine. This is because the quantity of UV rays increases by 4% with every 300 metres of altitude. This means you can tan much faster in the mountains than on the beach... Plus, you'll enjoy much more pleasant temperatures and avoid suffocating heat waves.

PURE MOUNTAIN AIR

A mountain holiday means leaving highly populated cities, air pollution and traffic jams far behind. No more crowds! And you'll find lakes and rivers where you can relax, re-energise and refresh whilst admiring breathtaking scenery in peace and quiet!

DISCOVER NATURE

You'll be blown away by the incredible panoramic views and spectacular landscapes. This is the perfect place to extend your knowledge of the past, exploring old villages with their traditional architecture, museums, religious buildings and fortifications. Admire remarkable historic sites and learn about the history of mountain villages. Head out to explore the wild plants and wildlife dotted about our mountainsides!

SOMETHING FOR EVERYONE

You'll enjoy village festivals and a host of other activities like hiking, mountain biking, lake or pool swimming, water parks, thermal spas, paragliding, via ferrata, pony trekking and more. There's something for everyone, little ones and grown-ups alike.

As regards actually building the residences, we act as property developer, co-developer, or end-user representative.

• MARKET AND ADVISE

Immoé, a subsidiary of the TERRÉSENS Group, markets the properties (apartments, chalets, villas, etc.). To reduce the number of middlemen, we operate with our own network of consultants in France and abroad.
