WORDS FROM THE ARCHITECT

To create La Réserve, we combined all the architectural elements found in the region. We wanted to retain the unique character of the place.

White and blue buildings inspired by the village of Comporta, villas with white walls and thatched roofs, landscaped gardens with a brazier in the middle and so on.

Everything was designed to create calm relaxing surroundings.

WORDS FROM THE INTERIOR DECORATOR

Comporta is synonymous with simplicity and complexity. Its style is uniquely its own: both bohemian and sophisticated. We used local materials in traditional or re-interpreted ways to decorate the apartments, houses and villas. The decor combines authenticity with chic.

WORDS FROM THE LANDSCAPE GARDNER

Gardens are very important in Comporta. The boundaries between interior and exterior spaces are almost non-existent. During the day, the pool is used for a taking a refreshing dip and then, in the evening, candles are lit around it for dinner.

The gardens in La Réserve will be sandy and planted with indigenous vegetation with intense aromas and calming colours. You will be able to wander through them barefoot on the narrow wooden boardwalks.

Use of the packages presented below is not a requirement.

Our transversal expertise gives us a global vision of property that is indispensable when selecting high quality long-lasting property investments for promotion and rental management.

• DESIGNING AND BUILDING

Our group gets involved as soon as a property has been located. After a study carried out by our development department, we select sites with rigorous attention to detail. Choosing the right location is critical because it guarantees the best investment: "Location, location, location" is our watchword!

We then carry out the following: markets studies for the product; benchmarking; and product design in collaboration with the architects, our management department and the future management teams. When building the properties, we get involved as the property developer/ co-developer, or even as the assistant contracting authority.

• MARKETING AND CONSULTING

Immoé, a subsidiary of the TERRÉSENS group, markets the properties (apartments, chalets, villas etc.). We work with our own network of consultants in France and internationally.

• MANAGING AND OPERATING

Our management team studies, selects and validates the future property programmes completely independently so as to ensure long-lasting problem-free management. During the operational phase, our on-site teams ensure the good running of the properties and ensure that they are full through the upkeep and technical monitoring of the units and common areas.
