VAUJANY

An authentic and modern village resort!

AUTHENTIC AND MODERN

Vaujany is a mountain village, located at 1,250m on a sunny plateau, facing the Massif des Grandes Rousses. Vaujany enjoys a prime location, located 50km from Grenoble, in the heart of the Oisans, on the outskirts of the Ecrins National Park and within the Alpe d'Huez Grand Domaine.

The Vaujany region stretches over 7,500 hectares. From the lowest point (the hamlet of Verney, 790m) to the highest point (Pic de l'Etendard, 3,468m), passing through the village at 1,250m altitude, there is a difference in altitude of 2,678m, which explains the great diversity of its landscapes.

The name Vaujany, which comes from the Latin "Via Janus", meaning the "road to the door", clearly evokes the idea that this is a place of passage. It was, in fact, the "gateway" to the region of Savoie, which was independent until 1860. Vaujany is located at the foot of the Col du Sabot which connects Isère and Savoie, a highly strategic location.

This authentic village has a soul, the heritage of its rich history, and is not just another resort built out of thin air.

Vaujany is one of the 8 towns of the Alpe d'Huez Grand Domaine Ski and Grand Domaine VTT, and has now become a privileged gateway to what this region has to offer: 250km of ski slopes / mountain bike trails and 90km of marked hiking trails.

The Domaine rises from 1,250 to 3,330m. In just a few minutes by cable car, holidaymakers can take in the magnificent views not just of the Pic Blanc, which rises 3,330m above sea level, but also of the Mont Blanc, the Grand Paradis, la Meije, les Ecrins.

VAUJANY: CHARMING VILLAGE AND GRAND DOMAINE

Vaujany has built superb infrastructures, worthy of the biggest resorts (sports centre, ice rink, many shops, pedestrian areas with escalators and state-of-the-art inclined lifts, free covered parking, free shuttles...) and offers wonderful possibilities for family holidays thanks to a wide array of activities and events organised by the resort.

In terms of cultural activities, the village has: 3 museums, a library, a seasonal cinema. All year round, the village hosts local events (concerts, shows, etc.) and national events (the Long Night of Museums, European Heritage Days, etc.).

CHILDREN / FAMILY

VAUJANY, A FAMILY RESORT

Vaujany is particularly proud of its image as a family-friendly destination. The resort pulled out all the stops to obtain the “Famille Plus Montagne” label, which it has held proudly since 2009.

In summer, Vaujany is an ideal resort for families and children: it offers a nursery for children from 6 months to 3 years old, a kid and teen club for children aged 3 to 16, safe playgrounds and special entertainment events for families every week...

FOCUS ON AN AMBITIOUS, DYNAMIC AND FULLY MASTERED DEVELOPMENT PROGRAMME

A significant investment programme was voted by Vaujany city council. From 2016 to 2020, €32.5M will be invested in order to offer greater comfort to skiers and tourists, but also to improve both the transport infrastructure and the accommodation capacity of the resort.

- A predominant share of this budget (€20M) is dedicated to the ski area: construction and remodelling of the slopes, modernisation of the ski lifts and refurbishment of the cable car station. It should be noted that the creation of the “piste des outres” ski run will connect the “La Vaujaniat” run to the Enversin d’Oz, enabling skiers to ski right back to Vaujany.

- Development of recreational areas: development of the Sabot greenway, construction of a summer toboggan run and a golf driving range in the recreational area of Le Collet.

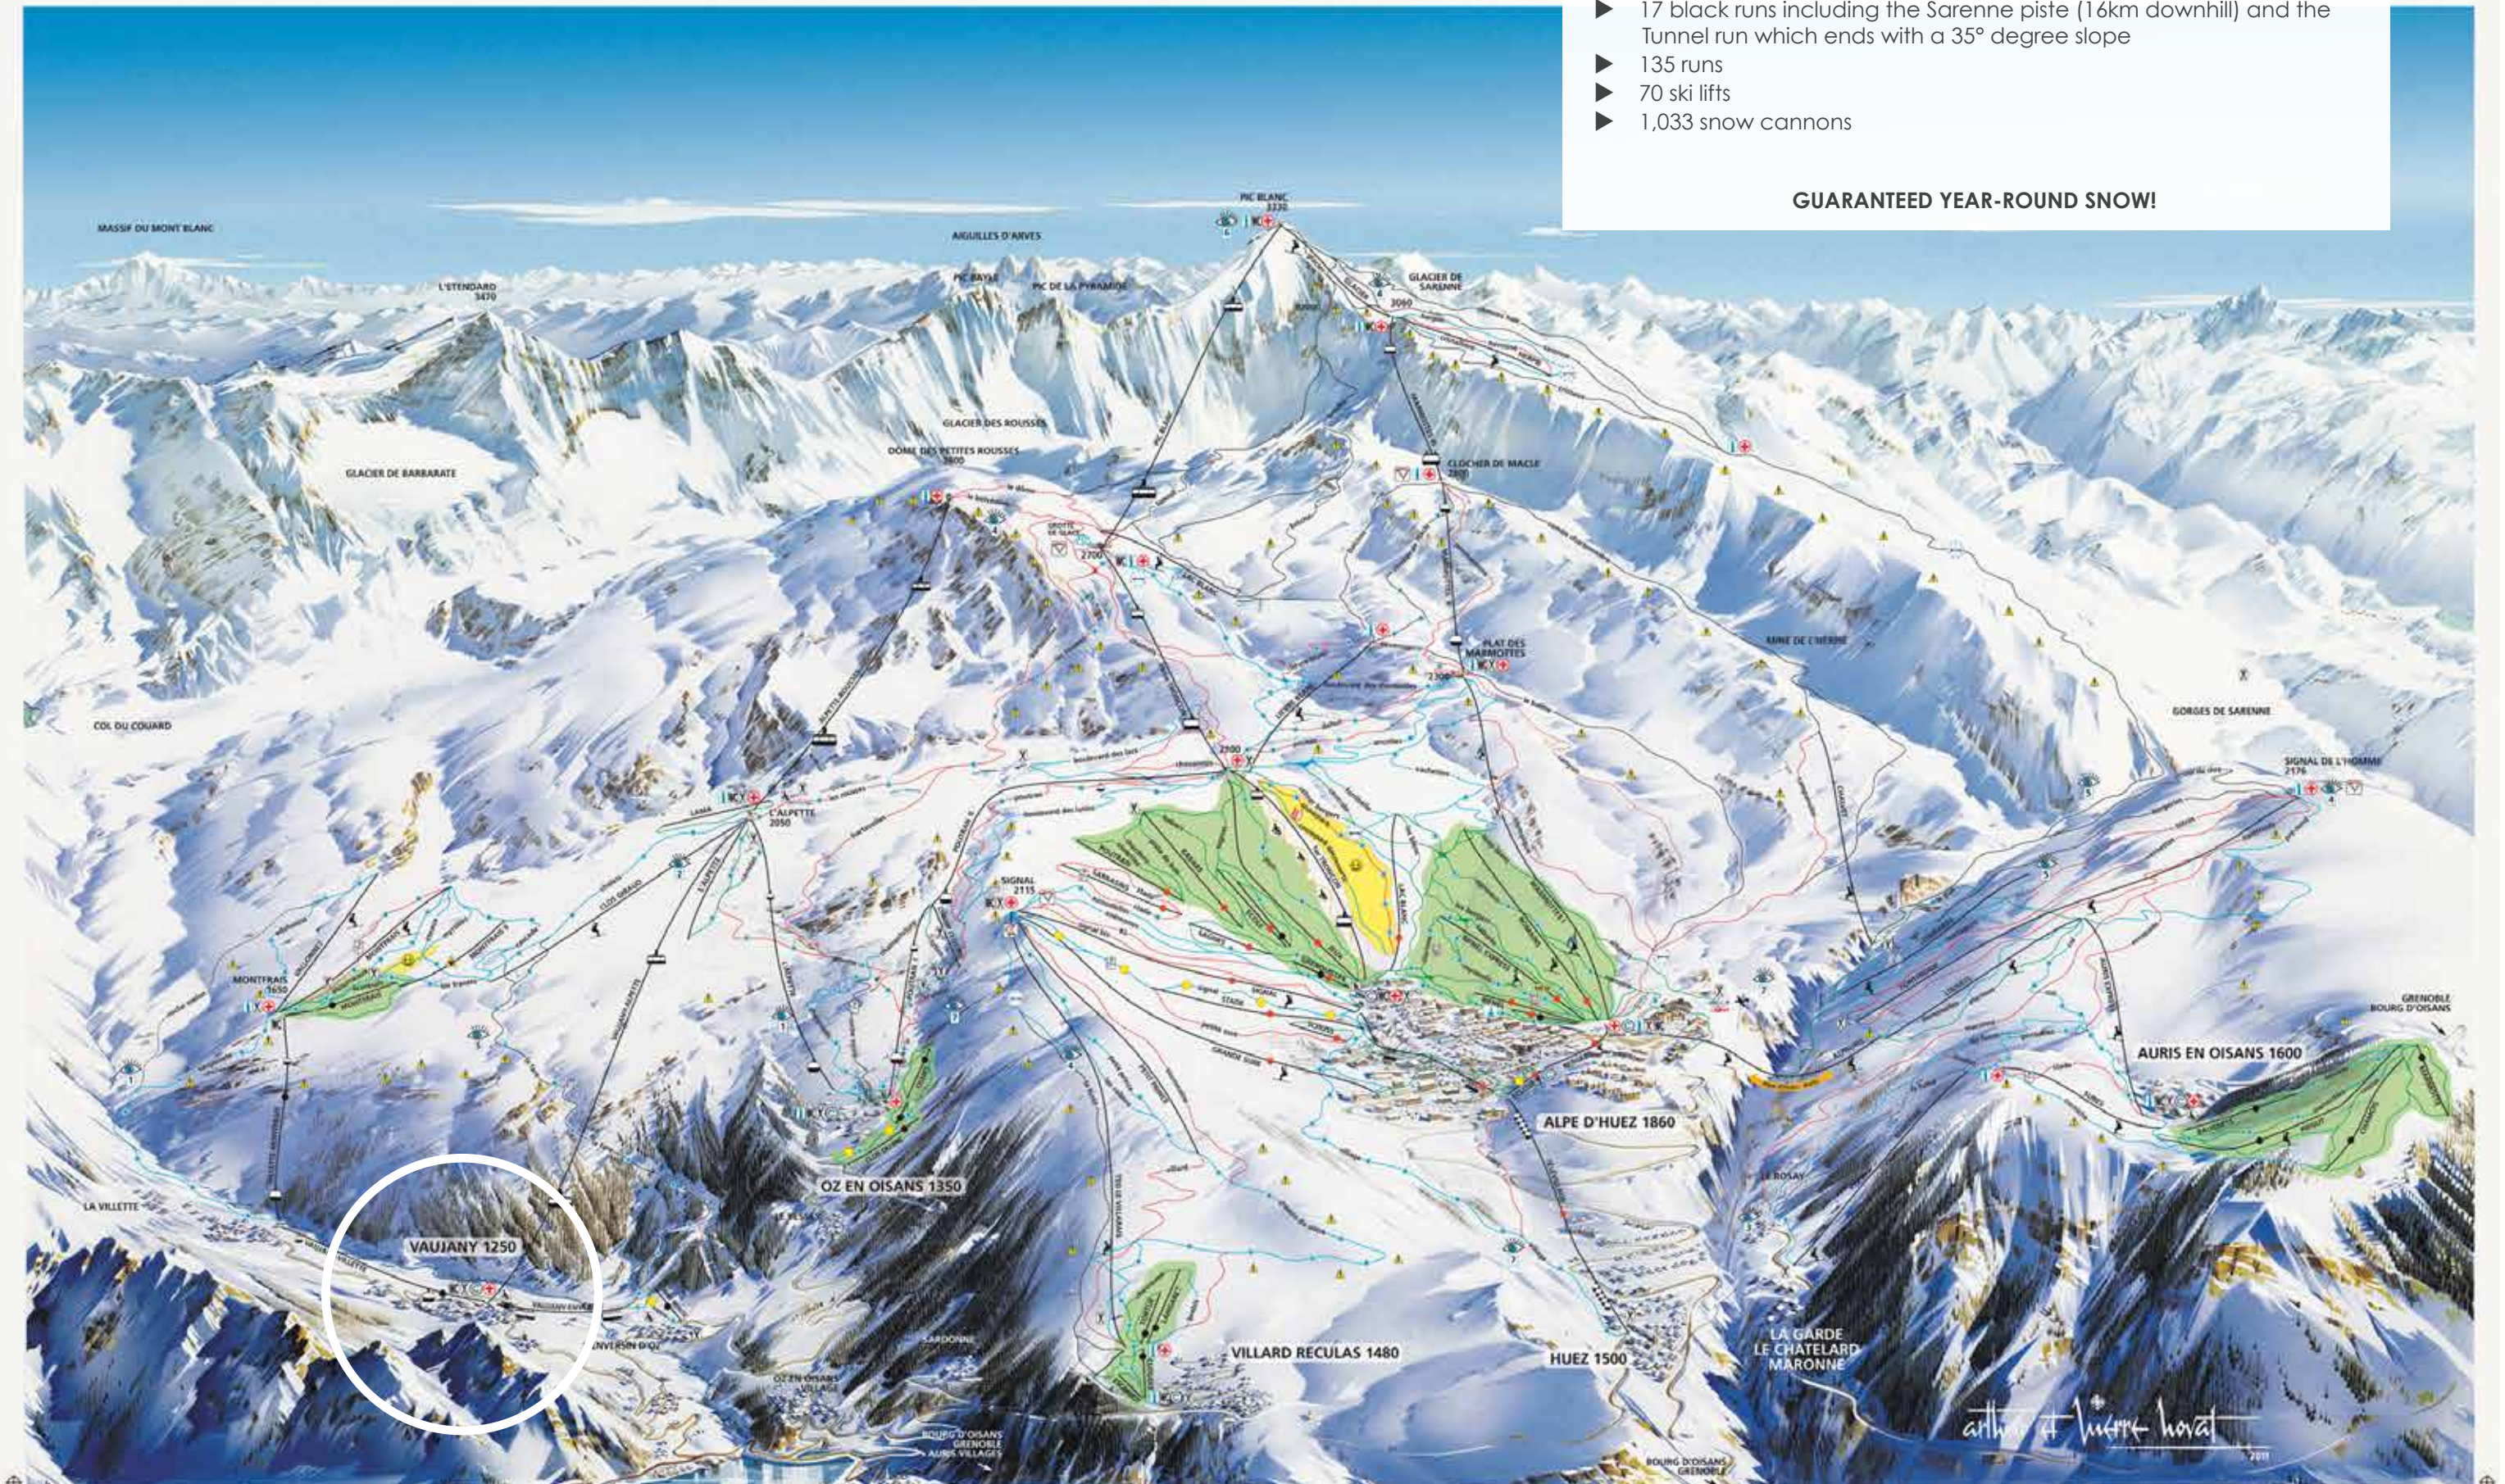

- Urban development: new car parks, disabled access compliant with French ERP standards.

This investment plan is partly driven by financial benefits from the EDF subsidies (2 hydroelectric dams in the municipality): the Grand’Maison Dam and the Verney Dam give Vaujany an annual income of just over €3M.

THINK BIG, SKI BIG!

- ▶ 5 ski areas and 2 connected villages
- ▶ 250km of downhill ski runs
- ▶ 50km of cross-country ski trails

TWO OWNERSHIP OPTIONS

▲ OPTION No. 1:

Purchase as a second home with a seasonal rental, at the choice of the owner (direct or agency)

▲ OPTION No. 2:

Purchase as a second home with a seasonal rental, at the choice of the owner by rental and concierge services Terrésens

ENTRUST US WITH THE MANAGEMENT OF THE SEASONAL RENTAL OF YOUR PROPERTY AND GET A VAT REFUND (20%) ON YOUR PURCHASE!

Today, there is an underlying trend of renting out second homes: over 30% of second homeowners opt to offer seasonal rentals. This provides them with a valuable additional income to cover annual expenses (maintenance, energy, co-ownership fees, tax, and when applicable, monthly mortgage payments).

With this in mind, the Terrésens Group has developed a rental solution that is both flexible and profitable for second homeowners: the Residential Tourism Condominium (CRT). The CRT is designed for homeowners who want to enjoy their second home fully, while affording themselves the opportunity to make it profitable by renting it when and as it suits them.

HOW IT WORKS

The investor acquires full ownership of a new property, before a notary. At the same time, the investor signs a commercial lease with the Terrésens Vacances management company, under the brand name My Second Home, specialising in tourist accommodation, as well as a contract for concierge services to establish personalised accounting, logistics and rental assistance.

Threefold advantage:

- 1 - Owners retain the freedom to occupy their second home whenever they wish to, up to 6 months per year.
- 2 - Owners can also choose to optimise the rental yield at any time by spending less time at the property. The contractor undertakes to pay the owner a percentage of the turnover resulting from the seasonal rental of the property.
- 3 - The owner recovers the VAT (20%) on the purchase of the property and its new furniture.

Purchase Profile

This type of purchase is designed for homeowners looking for great occupation flexibility and a simplified way of renting out their property. In general, the decision to rent the property out is motivated by the desire to finance the condominium fees and energy costs.

Tax Optimisation:

These owners recover VAT (20%) on the purchase of their property and new furniture *.

* VAT recovery: Art. 261 D 4e / Art 271 I and Art 271 IV of the CGI: recovery of the VAT acquired by 20th in connection with the acquisition of a property in a residence with para-hotel services.

For a burden-free dream holiday, owners and their loved ones can use this card to access various concierge services*

For any personal requests, a concierge is at your disposal.

360° EXPERTISE IN LEISURE REAL ESTATE!

The Terrésens group manages the promotion of the “Les Edelweiss” Residence, in partnership with Rampa Réalisations, with responsibility for its marketing and management under the My Second Home brand.

The TERRÉSENS GROUP was set up in 2008 as a specialised and internally-structured organisation involved in all aspects of leisure real estate. This transversal expertise ensures a global and essential real estate vision for the wide selection of quality and long-lasting properties in terms of valuation and rental management.

- Design and build

Our Group intervenes as soon as a property is detected. After a study by our development department, we rigorously select the locations. This decision is crucial since it is a guarantee of the best investment: “location, location, location” is our motto. We then validate the following steps: housing market studies, benchmarking but also the design of the project with the architects, our management department and the teams of the future operator. For the construction of residences, we intervene either as a real estate developer / co-developer, or as an assistant contracting project owner.

- Market and advise

Immoé, a subsidiary of the TERRÉSENS group, markets real estate (apartments, chalets, villas, etc.). We operate with our own network of consultants in France and abroad.

- Manage and Operate

Our management team studies, and independently selects and validates future real estate programmes to ensure sustainable and worry-free management. Depending on the project, its size, location or the typology of residences, we entrust the operation of the residences to known, recognised managers, or we operate them ourselves. During the operation phase, our on-site teams ensure that the residences are properly equipped and functioning. This includes providing maintenance and technical supervision for all apartments and common areas.
