HISTORY

The first ski competition was created in 1914 and many photos show the village's discovery and development during this time. Farmers created ski slopes – nearly all of them would be tested out. Through her writing, a female journalist drew attention and new energy to the village. She would go on to become a Grande Dame of Megève through her influence. Mathilde Maige-Lefournier was a mountaineer originally from Chambéry. In November 1913, she wrote an article for 'La Montagne' review entitled "Megève or the glory of skiing" which praised the skiing in Mont d'Arbois and Rochebrune. One day she said to a hotelier in the village "I believe that Megève was created for skiing and skiing invented for Megève".

The arrival of the Rothschild family on Mont d'Arbois further accelerated the development of skiing in Megève. For them it was about building a French competitor to the Swiss ski resort of Saint-Moritz. The desire was to create a winter sports resort which would be a symbol of the French way of life. From the beginning, Megève was very sought after with the highest royalty staying at the resort.

In 1923, the Megève Sports Club was created which would later see some great champions emerge from its midst. Emile Allais, a child of the country, became a triple medallist at the World Ski Championships in Chamonix in 1937.

The famous Aallard fuseau ski pants were invented here in 1930.

This creative energy made the resort a talking point and its rise became dazzling.

Megève acts as a gateway to a range of activities for everyone, in summer and winter alike.

ST GERVAIS : Unique hot springs!

The Bains du Mont-Blanc thermal baths offer a truly exceptional opportunity for relaxation and optimising your well-being! The indoor and outdoor spaces are located in the breath-taking surroundings of the Bonnant gorge. The baths have been laid out to create an elegant experience, and every inch of the careful design enhances the Saint Gervais hot springs.

The multi-sensory journey takes you from experience to experience: steam baths, saunas, immersive grottos, corridors of sensations, warm paving, pools of hot spring water ... Once body and soul are fully relaxed, let time stand still as you soak up the mountain views from the herbal tea rooms.

COMBLOUX : The first artificial ecological swimming lake in France!

The lake, which measures over 1,500 sq.m., contains over 10,000 aquatic plants and a waterfall fed by a small stream, guaranteeing exceptional water quality for swimming while you enjoy breath-taking panoramic views of Mont Blanc. The water is naturally heated by the sun and temperatures vary between 19°C and 26°C, thanks to a tarpaulin stretched over the bottom of the swimming area. You enter the water via a gentle slope that is ideal for children. The lake is in the centre of the village in an Alpine setting, entirely devoid of "concrete" constructions. There is a wooden solarium, a grassy bank leading to the water and a bar/restaurant on the edge of the lake.

CHAMONIX : Access to the Vallée Blanche glacier!

Depart on skis from the Aiguille du Midi, at 3842 m altitude, and embark on an incredible journey over extraordinary glaciers at the foot of Mont Blanc all the way to Chamonix. There is a vertical drop of almost 3,000 m., the best powder, and a unique Alpine ambiance.

Professional construction and management

MOUNTAIN SPECIALIST SINCE 2008 !

• DESIGNING AND BUILDING

Our group gets involved as soon as a property has been identified. After our development department has carried out a study, we choose the locations paying meticulous attention to detail. The choice is vital because it guarantees the best investment: "Location, location, location" is our motto! We then carry out the following steps: markets studies for the product; benchmarking; and product design in collaboration with the architects, our management department and the future management teams. When building the properties, we get involved as the property developer/co-developer, or even as consulting technicians or engineers.

• MARKETING AND CONSULTING

Immoé, a subsidiary of the TERRÉSENS group, markets the properties (apartments, chalets, villas etc.). We work with our own network of consultants in France and internationally.

• MANAGING AND OPERATING

Our management team studies, selects and validates the future property programmes completely independently so as to ensure long-lasting problem-free management. Depending on the project, its size, location, and the typology of the building, we entrust the running of the residential complexes to well-known, recognised managers or we run them ourselves. During the operational phase, our on-site teams ensure the properties are well-run, full of bookings, while also looking after the upkeep of the apartments and shared areas and carrying out technical monitoring.
