"VILLAGE FEEL" RESORTS

- 1 - Timeless, authentic charm
- 2 - A relaxed way of life to enjoy with the family
- 3 - The mountain holiday of the future (two true high seasons: summer & winter)
- 4 - A safe-haven family asset

Every year, people's thirst for wide open spaces boosts the summer season in the mountains. It's an enthusiasm that mirrors the appeal of "a place in the country" to city dwellers.

VILLAGE RESORTS AND "VILLAGE-FEEL" RESORTS ARE ON THE RISE!

Buyers and holiday-makers are increasingly becoming fans of resorts running in both the winter and the summer. An escape from city life in a chalet-style residence, whose traditional, wood and stone architecture offers a total change of atmosphere, surrounded by vast tracts of unspoilt nature. This is what lies behind the increasing popularity of year-round mountain holidays—especially for the summer season, which is where the present and future growth of tourism lies.

WHEN FEELINGS COME FIRST

Say goodbye to the old "investment property" model for holiday apartments! A major factor in purchasing one of our residences is how it makes you feel. With owners first and foremost wanting to retain control of when they can personally occupy the property, and influenced by the Airbnb model, owners also appreciate the option to rent out their apartments for several weeks a year to cover their regular expenses. Purchasing a mountain home is therefore cost-effective, without having to worry about managing their holiday let under the "old model."

A SAFE HAVEN ASSET IN ALL SENSES OF THE TERM

The impact of economic uncertainties (COVID-19, international economic tensions, etc.) makes stock market prices highly volatile. Compared with yo-yo markets, high-end real estate is clearly a safer bet. It's a safe-haven family asset in all senses of the term, when you think how people living in the Paris area fled to the country when lockdowns were announced. Spending time getting back to nature with the family in the mountains is a top priority for our fellow citizens.

WHEN SPACE IS A LUXURY

Terrésens mountain properties are the perfect answer to our clients' expectations: no more cramped conditions; instead, places that feel more like home and offer the perfect balance between price and comfort in terms of space, particularly for living areas. The fully equipped kitchen is the centrepiece of the open-plan living area, where the whole family comes together. In fact, Terrésens tries to offer at least 25 m² of living space in apartments with two bedrooms or more.

Moreover, apartments with two or more bedrooms now feature a bathroom, a shower room, and two toilets, and owners now have their own storage space to facilitate using the accommodation for both personal and rental purposes.

NO NEED TO FIND A PLACE PERCHED AT 2000 METRES ABOVE SEA LEVEL!

There's a real trend among new buyers, who are no longer focussing their investments solely on occupation during the winter and on high-altitude skiing. Increasingly keen for their purchase to provide gains in both their finances and their personal pleasure, they are opting for village resorts in settings with year-round appeal. Connected to high-capacity lifts, these village resorts offer both the joys of winter sports and those of summer hikes in the mountains, as well as leisurely visits to café terraces and boutiques.

MOUNTAIN BIKING ON THE SLOPES – IT'S ELECTRIFYING!

Terrésens residences are increasingly in demand during the summer, a sign that mountain holidays are no longer just about skiing. Fewer and fewer holidaymakers want to be stuck on a packed beach. With a cart hooked to their electric mountain bike, they would much rather picnic with family members at the top of an Alpine pass, bathe in a biotope lake, go rafting or canoeing, and other activities offered at very affordable prices in the summer. To satisfy their thirst for the great outdoors and for spending quality time with the family, many people are now saying they are thinking of buying a holiday home in the mountains.

VILLAGE RESORTS:
Double the season – double the value!

- 1 - Pure air all year round
- 2 - Plenty of activities for everyone
- 3 - Peace & quiet to relax
- 4 - Perfect spot to spend quality time with the family!

LOWER PRICES IN SUMMER!

The price of accommodation is lower during the summer season, and this is attracting more and more visitors. There has been a real boom in mountain holidays these last few summers.

PLEASANT TEMPERATURES!

For sun-lovers, mountains are where they can get some of the best sunshine. This is because the quantity of UV rays increases by 4% with every 300 metres of altitude. This means you can tan much faster in the mountains than on the beach... Plus, you’ll enjoy much more pleasant temperatures and avoid suffocating heat waves.

PURE MOUNTAIN AIR

A mountain holiday means leaving highly populated cities, air pollution and traffic jams far behind. No more crowds! And you’ll find lakes and rivers where you can relax and cool off while admiring breathtaking scenery without the hustle and bustle!

DISCOVER NATURE

You’ll be blown away by the incredible panoramic views and spectacular landscapes. This is the perfect place to extend your knowledge of the past, exploring old villages with their traditional architecture, museums, religious buildings and fortifications. Admire remarkable historic sites and learn about the history of mountain villages. Head out to explore the wild plants and animals scattered across our mountains!

SOMETHING FOR EVERYONE

You’ll enjoy village festivals and a host of other activities like hiking, mountain biking, lake or pool swimming, water parks, thermal spas, paragliding, via ferrata, pony trekking and more. There’s something for everyone, little ones and grown-ups alike.

WHERE AUTHENTICITY MEETS FRIENDLINESS

A human-scale resort with a village feel, Les Carroz-d'Arâches is located in the heart of France's Haute-Savoie department and offers access to a large ski area. With a super-private ambiance, this resort offers a true getaway in the heart of the Grand Massif ski area.

The Grand Massif is one of the biggest ski areas between Geneva and Chamonix, with five ski resorts linked together between 700 m and 2500 m of altitude: Flaine, Les Carroz, Morillon, Samoëns, and Sixt. The Les Carroz ski resort, at 1140 m, is the quickest and closest entry point for the ski area.

The ski resort is located in the heart of the Grand Massif and is certified as a "Family Plus" resort. It provides access to the ski area from the resort centre. A free car park with 550 spaces, free ski shuttles, and ski lockers at the foot of the Kédeuze gondola lift enable easy access to the pistes.

With typical Savoie architecture, as represented by its elegant chalets, it's the ideal setting for a mountain getaway, whether for a weekend or a full week.

THE SKI AREA

A total of 1800 m of slopes!

- 1 - A big ski area with varied terrain
- 2 - 5 resorts
- 3 - 16 fun zones
- 4 - 6 freeride zones & 2 boardercross zones
- 5 - Great off-piste opportunities
- 6 - High-quality snowfall
- 7- Easy pistes for beginners

The Grand Massif ski area has received awards for its commitment to the environment! It's also the first ski area in the world to receive Green Globe certification for all of its ski lifts, pistes, and related services.

Established over 30 years ago, in the winter of 1982-1983, the Grand Massif is an exceptional destination thanks to both its natural setting and the quality of its ski runs. The immense area of close to 40,000 hectares was created by linking Tête des Saix mountain to the four resorts that make up the ski area: Flaine, Les Carroz, Morillon, and Samoëns.

What's more, the history of the Grand Massif is closely tied to the history of winter sports in France. Les Carroz, one of the gems of the Grand Massif, got its first ski lift in 1939. At 1600 metres long, the ski lift built the resort's reputation and established it as the top ski resort in France.

Enjoy discovering Flaine, the legendary ski resort; Les Carroz, the perfect resort for families; Sixt, surrounded by nature; and Morillon and Samoëns, the more traditional ski resorts.

Halfway between Chamonix and Geneva, the Grand Massif welcomes in fans of winter sports at a diverse and unique ski area. The ski area delights lovers of skiing and snowboarding at all levels of experience with its 139 pistes (25 green pistes, 59 blue pistes, 44 red pistes, 11 black pistes), and also provides access to wide-open spaces thanks to its 62 ski lifts. It offers pristine nature (40,000 hectares of forest) and views of the Mont Blanc range that will take your breath away.

THE SKI AREA

With 40,000 hectares of forest, the Grand Massif is one of the biggest ski-in, ski-out connected ski areas in the French Alps.

The Grand Massif ski area has received awards for its commitment to the environment! It's also the first ski area in the world to receive Green Globe certification for all of its ski lifts, pistes, and related services.

THE NORDIC SKIING AREA

At 1844 m above sea level, overlooking the Arve valley, the Col de Pierre Carrée offers the highest and snowiest Nordic skiing area in the Alps.

On Agy plateau near Les Carroz
Overlooking Saint-Sigismond, Agy plateau, with its wooded surroundings, is a paradise for cross-country skiers. The sunny plateau offers exceptional, 360° views of the Giffre and Arve valleys.

In the **Giffre valley**, you can enjoy two ski areas:
- A Nordic skiing area in the heart of the Giffre valley that stretches from Sixt to Morillon and passes through Samoëns.
- A ski area located at 1700 metres of altitude in an exceptional location: the Joux Plane pass. Thanks to its altitude, the pass has snow cover all winter long. On top of it all, you can enjoy an incredible panorama with views of Mont Blanc.
